[Environmental Assessment Port of Skamania County Wastewater Stormwater and Drinking Water Project and Preliminary Finding of No Significant Impact](#)

The Environmental Protection Agency (EPA) has prepared an Environmental Assessment (EA) and Preliminary Finding of No Significant Impact for public review and comment for 30 calendar days before making the decision on whether, and if so how, to proceed with a proposed action. The EA evaluated the issuance of a Community Grant award to the Port of Skamania County for their Wastewater, Stormwater, and Drinking Water Project. The project components include constructing drinking water and sanitary wastewater utility infrastructure and stormwater drainage structures in the City of North Bonneville’s newly developed Cascade Business Park. Congress appropriated \$959,752 earmarked for the Port of Skamania County under the Consolidated Appropriations Act, 2024 (P.L. 118-42) for their Wastewater, Stormwater, and Drinking Water Project¹.

EPA considered two alternatives for the Proposed Project: the Proposed Action and the No Action Alternative, which are analyzed in this EA pursuant to Section 102 of the National Environmental Policy Act (NEPA) of 1969 and EPA’s NEPA procedures under 40 CFR part 6. The EA did not identify significant effects to resources as a result of implementing either the Proposed Action or the No Action Alternative. However, EPA will consider public and agency comments prior to making its decision regarding implementation of the proposed project. After evaluating any comments received, EPA will make a final decision. The preliminary decision and finding will become final after the 30-day comment period expires if no new significant information is provided to alter this finding.

The Draft EA is available for download from EPA’s NEPA Compliance Database at <https://cdxapps.epa.gov/cdx-enepa-II/public/action/nepa/details?nepaId=559468>. Questions and public comments may be sent to: Amy Williams at Williams.Amy@epa.gov, on or prior to July 9, 2026.

¹ The FY 2024 Appropriations Act identifies \$959,752 for “Port of Skamania County for Wastewater Infrastructure Project.” A technical correction to modify the purpose of the project was approved on May 5, 2025; the revised project language is “Port of Skamania County for Wastewater Stormwater and Drinking Water Project.”
